OHA ANNUAL MEETING 2023
DATA & ANALYSIS SCHEDULE

Day	Time	Presentation Name	Description	Presenters
Tuesday	8-9 a.m.	Best Practices in Leveraging Ambulatory and Physician Office Data for Outpatient Growth	Starting in 2023, OHA, through partnership with HSG Advisors will be delivering access to ambulatory and physician office claims data to all Ohio hospitals and health systems. This session will review case study examples of organizations utilizing similar data to develop and execute upon market specific growth objectives.	Stephanie Fryman, RHIA, director, Application Support, Ohio Hospital Association DJ Sullivan, MBA, MHA, managing director, HSG Advisors
Tuesday	9:45-10:45 a.m.	Utilizing Data to Understand Health Disparities Among Patients Screened for SDOH	This session will describe how to effectively use patient-level data derived from Social Drivers of Health screening to understand how health related social needs impact health disparities. Understanding this data through the use of an interactive dashboard can inform the development of programs that will impact these most vulnerable populations.	Kevin Chagin, MS, manager, Advanced Analytics & Data Operations, The MetroHealth System Marielee Santiago-Rodriguez, MSW, LSW, MPH, director, Transformative Knowledge & Education, The MetroHealth System
Tuesday	2-3 p.m.	Workforce Reimagined: Transforming Productivity through Drillable Electronic Dashboards & Reports	This case study will discuss the process used to move to a digital drillable productivity dashboard. The increased operational efficiencies, revenue capture and organizational right sizing will give participants tools to address improving profitability. Participants will be given tools and proven processes to assist in keeping hospitals serving their community.	Kevin Rash, MPT, FACHE, director, FORVIS Jennifer A. Williams, MBA, FHFMA, chief financial officer, vice president, Financial Services, Wayne HealthCare
Tuesday	3:15-4:15 p.m.	OHA Advanced Analytics Market Share: Patient Migration	OHA offers its data program members access to a new advanced analytics market share platform. This session will review the platform and the specific dashboard capabilities and provide attendees an overview of how the data can be used to analyze specific market area trends and patient migration patterns.	Amy Andres, senior vice president, health strategy, Ohio Hospital Association Stephanie Fryman, RHIA, director, Application Support, Ohio Hospital Association
