

# Webinar

## STATE REGULATIONS AND CHOOSING SUPPLEMENTAL DISINFECTION OF DRINKING WATER

Presented by Barclay Water Management, in cooperation with the Hospital Association

**Oct. 21**  
1 – 2 p.m. (ET)  
OHA Members Only

### OVERVIEW

According to the CDC, Legionnaires' disease continues to be on the rise. Hospitals are looking for tools to minimize Legionella bacteria in their drinking water systems. This presentation covers what hospitals need to know about supplemental disinfection, the permitting process, ongoing regulatory testing and reporting.

### WHO SHOULD ATTEND

Hospital facility directors, infection prevention personnel, anyone interested in choosing supplemental disinfection.

### PRESENTERS

**Abby Jacobs**, M.S., has been the Microbiology director at Barclay Water Management for two years. Abby earned her B.S. in Marine Science from the University of Maine and M.S. in Biology from Loyola University Chicago. Abby is a certified water operator in Massachusetts and Pennsylvania. Abby since 2014 has been in the drinking water industry and previously worked as a water quality technician and as a microbiologist in a certified drinking water laboratory. Abby specializes in facilitating the Public Water System permit approval process by working with regulatory agencies, customers, operators and professional engineers to permit supplemental treatment systems in New England and the Midwest.

**Spenser Johnson** has been the Lead Environmental Group Manager at Barclay Water Management for over 3 years. Spenser is a Legionella Water Safety and Management Specialist and a Certified Pool Operator. Spenser earned her B.S. in Biology and Environmental Studies from Saint Michael's College. Spenser has been in the water treatment industry since 2017. As the Lead Environmental Group manager, Spenser provides expertise on controlling Legionella bacteria in building water systems and conducts on-site risk assessments to develop site specific Water Management Programs.

## LEARNING OBJECTIVES

- Participants will understand supplemental disinfection methods for Legionella bacteria control in hospital drinking water systems.
- Participants will gain comprehensive knowledge of the drinking water permitting process.
- Participants will learn how to satisfy ongoing state regulations when feeding drinking water treatment.

## REGISTRATION FEES

This webinar is available only to OHA members, and there is no cost.

## REGISTRATION

All attendees must register online at [www.ohiohospitals.org/events](http://www.ohiohospitals.org/events). For registration questions, please contact Sherri Cohen at [sherri.cohen@ohiohospitals.org](mailto:sherri.cohen@ohiohospitals.org). Upon registration, you will receive a GoToWebinar confirmation email with a link to complete your registration form.

## CONTINUING EDUCATION CREDITS

The program for Ohio Society for Health Care Facilities Management held on October 21, 2020, has been approved by ASHE for 1.0 Contact Hour (1.0 CEC). For questions regarding CEs, please contact Casey Strader, [casey.strader@ohiohospitals.org](mailto:casey.strader@ohiohospitals.org).

## QUESTIONS?

For all other questions, please contact Cindy Stump at [Cindy.stump@ohiohospitals.org](mailto:Cindy.stump@ohiohospitals.org)
